## **THE LYMPH & VAGUS CROSSOVER WORKSHOP – Gus de la Querra**

Our vagus nerve is our brain's eyes, ears, and hands deep inside our bodies. It is responsible as much for our physical health and wellbeing as it is for our mental health; looking after this nerve is essential and crucial to our survival.

Our lymphatic system is not only the body's debris removal system, but also our immune system highway and gatekeeper to gut and brain health. If our lymphatic system had to stop working we'd be history in about 48 hours.

Our Bowen work puts us in the unique position of being able to affect both these powerhouses at the same time, and getting the most out of both.

Join Gus on this one-off workshop where you will get access to the latest information and research, and learn to assess and treat the most important and key crossover areas of both these systems – treating both at the same time – getting the ultimate in treatment outcome!

*The body can't heal when it's in stress mode.*

\* Please bring your own lunch with you to the conference if you can. If you are unable to do so and would prefer us to supply a lunch (sandwich/wrap/salad, fruit, crisps etc.) please contact the Membership Office with your requirements. You will need to pay £10.00 extra for a supplied lunch, in advance.

# BTPA AGM / PDD Booking Form

To be completed by all delegates.

If you are a BTPA Member, you can specify your Member ID number instead of completing the contact details section.
